**RECOMMENDATION FOR FINAL ACTION ON READOPTION OF RULE**

**A. INTRODUCTION**

For consideration is the readoption of 312 IAC 23 governing state historic rehabilitation tax credit. This article includes Rule 1—administration; Rule 2—definitions; and Rule 3—certifications by Division of Historic Preservation and Archaeology. The text of 312 IAC 23 can be accessed through the Legislative Services Agency Internet site at: <http://www.in.gov/legislative/iac/T03120/A00230.PDF>.

In April 2002, the Natural Resources Commission approved delegations of authority with respect to readoptions. Where the rules are being readopted in their current form without amendments the Director of the Division of Hearings may approve preliminary action. However, the Commission retained authority to take final action on recodifications.

The rules codified under 312 IAC 23 are proposed for readoption without amendment. The Director of the Division of Hearings approved preliminary action on January 3, 2011. It is the standard practice to readopt rules by article, and 312 IAC 23 is now submitted for consideration as to final action.

**B. READOPTION ANALYSIS REQUIRED UNDER IND. CODE § 4-22-2.5-3.1**

James Glass, Ph.D., State Archaeologist and Director of the Department of Natural Resources, Division of Historic Preservation and Archaeology, was appointed as the

Small Business Regulatory Coordinator for this rule readoption. Glass provided the following analyses of potential impacts to small business for the proposed readoption of 312 IAC 23:

#### **IC 4-22-2.1-5 Statement concerning rules affecting small businesses**

##### **Estimated number of small businesses subject to this rule:**

This program is voluntary. No requirements are made of any business except as they may choose to apply to participate in the program. During the past 10 years, between three and 22 businesses have applied annually with an average annual rate being eleven. Approximately 40% of these applications represent buildings with substantial apartment occupancy. Approximately 60% represent other business property.

##### **Estimated average annual reporting, record keeping, and other administrative costs small Businesses Will Incur For Compliance:**

The program requires a single three-stage application process. The bookkeeping required for claiming the credit would depend on circumstances of the applicant, but would be part of the regular tax filing requirement with reference to expensing and depreciation.

##### **Estimated total annual economic impact on small businesses to comply:**

312 IAC 23 only clarifies the procedures required by the statute for certification of the credits. It establishes no new procedural cost burdens, but does establish limits on tax credit claims not found in the statute. Some minimal cost may accrue to preparation of the one-time application, but such costs constitute qualified expenses for proportional return via the credit.

##### **Justification statement of requirement or cost:**

Documentation for the character and costs of the project by way of the application process is required for the Division's certification pursuant to statute.

##### **Regulatory flexibility analysis of alternative methods:**

There are no alternatives available due to the statutory requirement for certification by the division. When the applicant also seeks certification for the parallel federal program (as many often do) the same submittal of documentation serves for state certification, making the cost for preparation of the state application negligible.

#### **Review under IC 4-22-2.5-3.1**

##### **The continued need for the rule.**

The statute remains in the code and therefore applications for the rehabilitation investment credit require continued certification. The administration of statute continues to require a rule principally due to stipulations of the rule with reference to per/taxpayer limits and the queue which tracks availability of allocated credits.

##### **The nature of any complaints or comments received from the public, including small businesses, concerning the rule or the rule's implementation by the agency.**

The rule so closely follows the statute as to not stimulate additional concerns.

**The complexity of the rule, including any difficulties encountered by:**

**(A) the agency in administering the rule; or**

**(B) small businesses in complying with the rule.**

None noted by the Division or applicants for the credit.

**The extent to which the rule overlaps, duplicates, or conflicts with other federal, state, or local laws, rules, regulations, or ordinances.**

The rule closely follows the statute. Applications often reflect projects also seeking certification for a similar federal program.

**The length of time since the rule was last reviewed under this section or otherwise evaluated by the agency, and the degree to which technology, economic conditions, or other factors have changed in the area affected by the rule since that time.**

This rule was last re-adopted in 2005

### **C. NOTICE OF INTENT TO READOPT AND RECOMMENDATION FOR FINAL ACTION**

On March 30, 2011, a “Notice of Intent to Readopt” 312 IAC 23 was posted to the *Indiana Register* at 20110316-IR-312110103RNA as anticipated by Ind. Code § 4-22-2.5-2 and Ind. Code § 4-22-2.5-4. The notice indicated the intention to readopt the entirety of 312 IAC 23 without changes. The notice also provided that a person had 30 days to submit a written request to the Natural Resources Commission, through the Small Business Regulatory Coordinator, seeking to have a particular section of the rule readopted separately. If such a request had been made, the Commission would have been required to complete the full rule adoption process for the section requested to be readopted separately.

In this instance, no written request has been received. The Commission may either submit the rule for filing with the Publisher under Ind. Code § 4-22-2-35 or elect the procedure for readoption under Ind. Code § 4-22-2. It is recommended that the Commission approve for readoption 312 IAC 23, without amendment as attached in Exhibit “A” for subsequent filing with the Publisher.

Sec. 4. (a) The total amount of historic rehabilitation tax credits that may be allowed under this article, for each state fiscal year, cannot exceed the amount stated in IC 6-3.1-16-14.

(b) No person shall receive a tax credit in excess of one hundred thousand dollars (\$100,000) for an application approved under this article.

(c) Applications for a tax credit shall be accepted beginning on February 15, 1994, by the division. No application shall qualify for a tax credit until the project work has been certified by the division as provided in section 3(e) and 3(f) of this rule. The division shall place each application certified under section 3(e) and 3(f) of this rule in a queue.

(d) Subject to subsections (a) and (b), an application placed in a queue qualifies for a twenty percent (20%) historic rehabilitation tax credit. The division shall notify those applicants in the queue who have qualified for credits, and the revenue department, of both of the following:

(1) The amount of credit to which each applicant is entitled.

(2) The state fiscal year in which the applicant may claim the credit.

(e) Subject to subsections (a) and (b), certified applications in the queue that follow those qualified for credits in the current year shall receive credits in the following state fiscal year, up to the annual limitation described in IC 6-3.1-16-14. The same pattern shall be repeated in each subsequent state fiscal year.

(f) If the result of an applicant receiving a credit under subsection (d) or (e) would be to exceed the annual cap, the excess is allowed as part of the amount eligible for credits in the following state fiscal year.

(g) A person placed in the queue under 310 IAC 24-3, before its repeal, shall maintain entitlement to the same order in the queue and the same amount of credit as if 310 IAC 24-3 had not been repealed. Affected: IC 4-21.5; IC 6-3.1-16-14

Sec. 5. (a) The division may, for misrepresentation, fraud, or similar good cause, file a complaint with the commission under IC 4-21.5 to modify or terminate a tax credit previously approved under this rule.

(b) The division shall, by administrative letter, modify a tax credit certification to conform the credit to a subsequent statutory change to IC 6-3.1 (or the amount of the annual credit authorized by IC 6-3.1). A modification under this subsection may accelerate or defer when a credit can be taken but shall not modify the sequence of the queue referenced in section 4(g) of this rule.
